MORE ABSORBENT\*

**NUK** High Performance

Breast Pads with instantly absorbent fleece

Understanding Life.

\* Compared to NUK Ultra Dry Breast Pads

# INVISIBLE, IMPERCEPTIBLE. INCREDIBLY ABSORBENT.

## Because you deserve the best.

You give your precious breast milk to your baby. That's why we give you our best breast pad ever. So you can be sure that not a drop of milk ends up on your clothes. You will hardly feel it because it is very delicate on your skin. And, of course, you can be sure that it won't slip.

The new NUK High Performance Breast Pads have a completely redeveloped, instantly absorbent fleece with microbeads that is 40% more absorbent\* and safely retains the liquid. A specially structured inner fleece ensures the optimal absorption and distribution of the liquid. Thanks to its anatomical 3D shape, the NUK Breast Pad gently fits around your breast while the breathable material nestles silky smooth against your skin.

\* Compared to NUK Ultra Dry Breast Pads

Silky soft

The new NUK High Performance Breast Pads have a completely redeveloped, instantly absorbent fleece with microbeads that is 40% more absorbent\* and safely retains the liquid. A specially structured inner fleece ensures the optimal absorption and distribution of the liquid. Thanks to its anatomical 3D shape, the NUK Breast Pad gently fits around your breast while the breathable material nestles silky smooth against your skin.

\* Compared to NUK Ultra Dry Breast Pads

## ABSOLUTELY RELIABLE

The instantly absorbent fleece with microbeads makes NUK Breast Pads particularly absorbent and retain liquid reliably.

## YOUR SKIN BREATHES

The materials are breathable, skin-friendly and silky soft.

## ALWAYS DRY

The specially structured inner fleece quickly absorbs the breast milk and channels it into the interior. Goodbye forever.

## SUITS YOU

The breast pad is 3D shaped. So it adapts to the breast – not vice versa.

## THIN AND DISCREET. WITHOUT SLIPPING

You know it's there. And nobody else does. Two large adhesive strips ensure that the breast pad no longer slips.

### NUK High Performance Breast Pads user test:

*In a user test with 140 mothers, we were the favourite among the breast pads tested: in the categories "good size", "good shape", "nestles snugly against the breast" and "does not slip in the bra".\*\*NUK emerged as the test winner. Thank you, dear mums!*

\*\* User test with 140 mothers in Germany, January 2020.
